Summary

Senior Software Engineer and Technical Leader with 10+ years of experience architecting and delivering scalable full-stack solutions. Expert in TypeScript, React, Node.js, and AWS with a proven track record of leading high-performing engineering teams at Volvo Group. Pioneer in integrating AI-augmented development workflows (MCP, GitHub Copilot) and modern QA practices. Passionate about mentoring engineers, establishing clean architecture patterns, and driving technical excellence across multicultural teams. Currently building E2E applications for Montessori Schools while leading frontend and QA initiatives in connected vehicle solutions.

Keywords: Senior Software Engineer, Functional Leader, AWS, React, Typescript, NodeJS, Volvo Group.

Certifications: Scrum Certification ([SCRUM.org](https://scrum.org)) Global Functional Leader Certificate (GlobalLeadership.com)

Experience

Volvo Group Connected Solutions

GOTHENBURG, SWEDEN

Senior Software Engineer / Technical FE Team Leader

Jan '23 – present

Leading frontend development and QA engineering team for connected solutions portal. Architecting and implementing scalable applications using TypeScript, React, and Node.js with AWS infrastructure. Integrating AI agents and MCP protocols (Kiro) alongside GitHub Copilot to enhance development velocity. Establishing modern QA practices with Playwright for end-to-end testing and Figma for design-to-code workflows. Championing progressive code review practices focusing on architecture, maintainability, and team knowledge sharing. Mentoring junior engineers on clean architecture principles and AI-augmented development.

- Keywords: TypeScript, React, Node.js, AWS, React Native, iOS Development, AI Agents, MCP, GitHub Copilot, Playwright, Figma, Team Leadership, Code Reviews, Clean Architecture, CI/CD

Professional Software Engineer

Jan '21 – Dec '22

Developed full-stack solutions for connected vehicle troubleshooting portal. Built responsive frontends with React and TypeScript, backend services with Node.js, and deployed on AWS. Implemented CI/CD pipelines and contributed to establishing coding standards across the team.

- Keywords: TypeScript, React, Node.js, AWS, DevOps, Agile Development

Tal Berenstein - Freelance.

MELBOURNE, AUSTRALIA

Freelance Full-Stack Developer

Oct '16 – Jan '20

Provides services related to software development such as: coaching, audits, process improvement, web/cloud architecture and stack strategies. (Mostly but not only: NodeJS, GraphQL, React (Js and Native), Javascript, HTML5 and CSS, PHP). Also worked with SQL and NoSQL databases.

Clients: HappyCamperPizza.com.au, DelightChile.cl & OrakelFörlag.se.

Gestsol

SANTIAGO, CHILE

Front-end Developer

Apr '15– Oct '16

Front-end mobile and web developer using technologies such as Ionic, Angular 1.x, CoffeeScript and Ruby on Rails 5.0. Mobile application similar to Netflix, fetching data from PHP endpoints to show in a video player developed by the team. Web Application GPS Real-Time application on CoffeeScript and Ruby on Rails fetching data and creating models from/to API developed in Elixir Erlang.

Please refer to Tal's LinkedIn profile for a more complete list of work experience along with recommendations.

Education

Global Leadership

GOTHENBURG, SWEDEN

Global Functional Leader

Sept '23 – March '24

Diego Portales University

SANTIAGO, CHILE

BSc in Computer Science (CS & Telecomunications)

2009 – 2013

Another Skills

Teaching experience: Currently, I am teaching a small group of junior developers about React, Typescript, and CLEAN architecture, so they can get their first job in this passionate field.

Natural languages: Spanish (*mother tongue*), English (*full professional proficiency/fluent*), Swedish (*working proficiency*) and Portuguese (*limited working proficiency*)
